***Description & Details:***

**General Statement of Duties**

The Greater Cincinnati Water Works Department is seeking an Engineer Intern or Senior Engineer to join their Supply Division in the Maintenance Section. This position manages capital projects, facility and process improvements, and manage activities in the maintenance section. The Senior Engineer performs professional engineering work involving the design and construction of mechanical and electrical systems, utility plants, and other projects with varying degrees of responsibility.

Electrical Engineer: Manage capital improvement projects and maintenance programs for electrical equipment and instrumentation & control systems including transformers, motors, switchgears, and communication systems. Participate in asset management, capital planning, and safety initiatives following National Electric Code (NEC).
