ABOUT US

The Ohio Section AWWA seeks to promote public health, safety, and welfare through the quality and quantity of water delivered to the public. The Section strives to provide solutions to effectively manage water in Ohio by providing professional development opportunities through educational conferences and workshops, access to scholarships, local news and information, and networking opportunities with other Ohio water professionals.

Our membership of over 1,800 water professionals includes water utility employees, municipal officials, public health professionals, engineers, scientists, educators, consultants, and many other professionals in the drinking water industry.
